ABOUT ME

Dedicated professional with hands-on experience in both frontend and backend development. Proven track record of successfully contributing to multiple projects, showcasing adaptability and proficiency in diverse technical environments. Eager to bring my skills and expertise to a dynamic team in a new professional opportunity.

PROFESSIONAL EXPERIENCE

Cloud Associate

Niveus Solutions pvt ltd

12/2022 – present
Mangalore, India

- Developed critical features and implemented essential functionalities for multiple projects using React, Angular, and Flutter for frontend development.
- Designed and implemented backend solutions using Node.js for financial services applications, optimizing database queries and improving system performance.
- Led the development of API solutions using platforms such as Apigee, ensuring secure authentication and data encryption.
- Collaborated closely with cross-functional teams to ensure timely delivery and seamless integration of frontend components developed with React, Angular, and Flutter, and backend solutions using Node.js.
- Cleared blockers by implementing essential functionalities and troubleshooting issues, ensuring project milestones were met. Implemented responsive design principles to ensure optimal user experience across various devices using React, Angular, and Flutter.
- Contributed to user experience enhancements, leading to improved usability and customer satisfaction.
- Conducted API testing and debugging using Node.js to ensure functionality and reliability, adhering to project timelines and specifications.
- Provided technical support and guidance to team members throughout the development lifecycle.
- Optimized API performance and scalability using Node.js to meet the demands of high-volume financial services environments.
